3 minutes + 10 seconds of credits which will indicate

VIDEOCOLLECTIF

Name of the city – Name of the video director(s) – Music (if applicable) – Year of creation

WHAT IS VIDEOCOLLECTIF ?

A concept created by Natan Karczmar, Vidéocollectifs are 3 minutes films offering a singular point of view of the city, far from the usual media coverage.

The city in which one lives, studies or visits.

Vidéocollectifs are open to everyone, whether French or foreigners, visitors or inhabitants.

The topic, which is one's own choice, offers a personal view of the city, reflects a will to share pictures, emotions, a video memory.

BROADCASTING

The participants accept the presentation and broadcasting of their copyright free work at the VIDEOFORMES Festival, at receptions of the Service Université Culture, and during events organised by the City of Clermont-Ferrand, exhibitions, festivals... in any country as well as on the internet, via the videocollectifs platform of VIDEOFORMES.

Every work will be shown at least once in a public screening during the VIDEOFORMES festival.

Their will be no commercial use of the works.

FORMATS

Quicktime HD file (1920 x 1080 pixels), encoded in H264 format (.mov, .mp4, .mv4...)
